

GIGAZONE TECH XPO

SANFORD
CENTER
BEMIDJI, MN

SATURDAY
APR 22
2023

Special Guest:
Co-founder of Apple
Steve "Woz" Wozniak

Show your technology to thousands of potential customers, students, and employees!

The first of its kind GigaZone TechXpo, a Paul Bunyan Communications Event, will be Saturday, April 22, 2023 from 10:00 am - 8:00 pm at the Sanford Center in Bemidji, MN.

Does your college offer innovative use of technology in degrees or programs you offer?

Does your company use technology in a unique or innovative way? If so, we would like to invite you to consider applying to be an exhibitor. The GigaZone TechXpo is **FREE** to the public and it is **FREE** for exhibitors as well!

The mission of the GigaZone TechXpo is to spark excitement and create opportunities with technology by connecting students and job seekers with employers, educators and technology enthusiasts from across northern Minnesota.

The event leverages the success of, and will be held concurrently with, the GigaZone Gaming Championship, an arena-style e-gaming competition produced by Paul Bunyan Communications which attracted more than 4,000 gamers to the last annual event. Info at www.gigazonegaming.com

The TechXpo will allow businesses creatively leveraging technology the opportunity to demonstrate their innovation to a large group of tech-savvy, potential employees. Educators and educational institutions can have their tech-oriented students show off projects and promote technology training programs they have to offer.

If you are interested in being considered to be an exhibitor where you can get your technology innovation in front of thousands of potential students/customers/employees, please fill out the enclosed application or go online to www.gigazonetechxpo.com Applications are due by March 1, 2023. Not all applicants will be selected, there is limited space available, and the applicant must display innovative use of technology. You will be notified by March 15, 2023 if you are chosen to be an exhibitor.
